

Dear Valued Customers,

Due to the ongoing uncertainty surrounding tariffs, GTH is committed to approaching these changes with caution and transparency. Currently, there have been changes in tariff structures that are impacting certain goods, including a high percentage of the products we supply. We understand the importance of stability and cost predictability in your operations, and we are working diligently to mitigate the effects of these tariff adjustments.

Our team is in continuous communication with relevant authorities and industry experts to stay informed of any developments. Additionally, we are exploring alternative sourcing strategies, refining our supply chain processes, and evaluating cost-effective solutions that will allow us to minimize any tariff-related increases.

As new tariffs are announced or existing ones change, we will address them promptly, which may result in additional invoicing, including after shipment and/or price increases incurred after the date listed on your project proposal. Please be assured that we will continue to monitor the situation closely and keep you informed of any updates that may affect your orders.

We deeply appreciate your patience and understanding as we navigate these dynamic circumstances. Our goal is to provide as much clarity as possible and to ensure transparent communication throughout this process. Thank you for your continued partnership and trust.
